

# PATROL CONNECT

A modern, all-in-one platform designed by a law enforcement officer for law enforcement professionals.

Website: <https://info.patrol-connect.com>

## BENEFITS

- Reduces time spent on administrative tasks and research.
- Ensures consistency and professionalism in document generation.
- Adaptable to meet the diverse needs of different departments.
- Cost-effective, with scalable pricing based on department size.
- All features are accessible by every department and officer. Features are not locked behind a paywall.

## KEY FEATURES

- All-in-One Resource Hub: Instant access to legal cases, training materials, and vital tools in one convenient location.
- Efficient Charge Code Lookup: Accurately find the right charge from the Missouri State Charge Code Manual during document generation. Type a keyword like "Stealing" to see related charges and ensure you're using the latest, correct charge code.
- Driver's License Scanning: Portions of the website are able to use a device with a camera to capture data from any State Driver's License, autocompleting the necessary fields.
- Quick Arrest Warrant Creation: Automatically determines the need for a felony or misdemeanor statement and generates the appropriate document, streamlining the warrant issuance process.
- Simple Document Generation: Create search and arrest warrants effortlessly. The system ensures documents are up-to-date, professional, and customizable in Microsoft Word. You can also use your own Arrest and Search Warrant application documents.
- Advanced Case Law Search: Access a wide range of legal databases and specialized searches for case laws relevant to your area, using simple or detailed queries.
- Professional Development Resources: Find links to both free and low-cost online training courses to enhance skills and knowledge.
- Mobile & Desktop Friendly: Use the platform anytime, anywhere, on any device, keeping essential resources within reach.
- Top-Notch Security: Warrant generation and document processing are done on your device for maximum privacy and security, with advanced encryption for safe data exchange.
