- **Effortless Document Generation:** Create, customize, and update search and arrest warrants in Microsoft Word. Integrate your department's specific forms for a seamless workflow.
- **Advanced Case Law Search:** Easily search local and national legal databases for relevant case law using basic or detailed queries.
- **Professional Development Resources:** Access curated links to free and low-cost online training courses to advance your skills and career.
- **Mobile & Desktop Friendly:** Stay connected and efficient on any device—anytime, anywhere.
- **Top-Notch Security:** Your data stays private. Warrant generation and document processing occur on your device with advanced encryption for safe data sharing.

AT A GLANCE

- "56% of law enforcement professionals say they spend three hours or more per shift writing incident reports or on other documentation" - Police1
- "The right technology can act as a force multiplier, allowing police departments to do more with the same number of officers" - StateTech
- "Heavy reporting demands divert officers' focus away from caring for people within their communities; instead, they spend hours filing incident reports." - Police Chief Magazine
